#### **Foreword**

The FSPO's People Vision is "To support and empower our people to deliver an excellent customer experience". In order to realise this ambition and to support the delivery of our Strategic Plan "Connecting and Innovating", the FSPO has developed its People Strategy 2022-2025.

This strategy sets out the collective efforts required to deliver against our statutory role and our strategic direction and commitment.

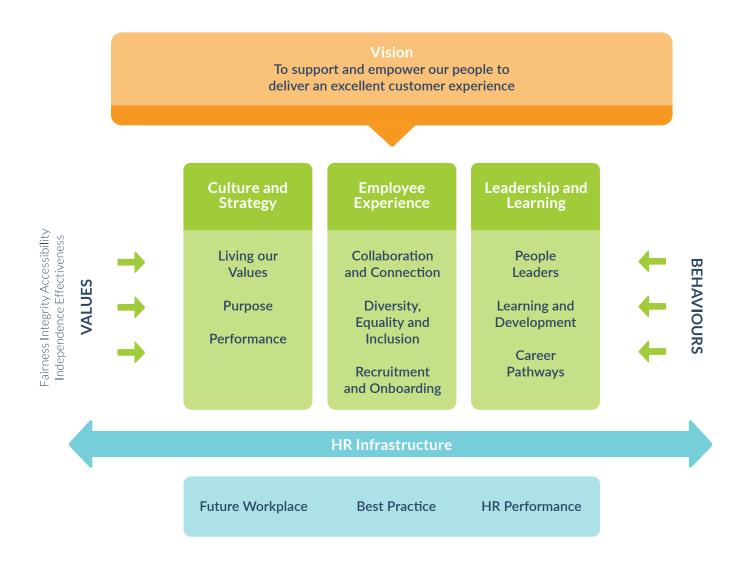

A programme for implementation will pinpoint the parallels and connect the priorities across our Strategic Plan, our People Strategy and our Customer Action Plan.

During the term of the People Strategy 2022-2025, we will be focussed on three strategic pillars to realise our People Vision and support the ongoing development of our organisation. We recognise that considerable emphasis is required on a fourth, underpinning foundational pillar - Human Resources Infrastructure.

As an organisation, we are committed to continued investment in our HR operating model to build our capacity, grow our expertise and assess the quality of our delivery. Doing this will allow us to enhance our functional impact on the changing needs of employee and customer expectations.

We are fully committed to implementing each of the pillars of the strategy and working collectively as a team to support our people to deliver the right outcomes for our customers, key stakeholders and for our growth – both personally and organisationally.

## 

## **Foundational Pillar:**

## **HR** Infrastructure

We recognise that the FSPO's HR infrastructure continues to be built and is key to ensuring a positive experience for our staff. We will continue to build our capacity, grow our expertise and assess the quality of our delivery.

#### **Future Workplace**

Build organisational capacity to capitalise on future public sector policy and strategy on remote working

Work with IT and CX teams to support innovation and identify solutions to any barriers to implementation
